RE: Docket No. 07-16

Dear Madam Secretary:

I am a producer of TV Vision in Tampa, Florida. My station creates family friendly programming for the local Hispanic community, while also creating educational opportunities through free English-tutoring programs. Giving back to this community while staying true to my faith is important to me.

Docket # **07-16** proposes a free network of nationwide broadband Internet access with a standard filter to prevent access to harmful websites by children. I support this proposal **for** several reasons. First, I believe that creating this network would create an easier way for many **of** our minority citizens to access important information. Many families simply cannot afford Internet access. Second, an internet service provider that effectively blocks indecent content would foster a safer environment for our children, while allowing them educational opportunities that they may not be able to participate in otherwise.

Finally- and perhaps most importantly- a **free** nationwide network of broadband access would provide an invaluable opportunity to create a greater sense of community among many **of** our minority citizens. Tampa's Hispanic community faces many challenges, and fostering the transfer of important information more quickly may help our residents supersede these challenges.

Sincerely,

  
Francisco Rios

TV Vision

RE: Docket No. 07-16

Dear Madam Secretary:

I am a substitute teacher in Pinellas County and a parent of a 3-year old and five year old. I'm in favor of Docket No. 07-16 because the M2Z proposal uses network level filtration of indecent content on the Internet.

According to the National Center for Education Statistics, 59% of nursery and elementary school students use the Internet. My children enjoy the learning opportunities available on-line. As a parent, I am constantly monitoring their activity. Many other parents and teachers are forced to deny their children the educational benefits of the internet for fear they will be exposed to inappropriate sites.

Please pass Docket No. 07-16 to make the net safer for our children.

Sincerely,

A handwritten signature in cursive script that reads "Tammy Matson".

RE: Docket No. 07-16

Marlene H. Dortch, Secretary  
Federal Communications Commission  
Office of the Secretary  
445 12th Street SW  
Washington, DC 20554

Dear Madam Secretary:

Due to my employment as the Hispanic Affairs Liaison for Florida's Hillsborough County, I am interested in the proposal by M2Z Networks to create a free broadband network throughout the nation.

My region's large Hispanic population has many unique challenges. The agricultural based economy of our rural areas provides limited opportunity for occupational growth, and our minority citizens must also deal with the unique challenges caused by this regions' catastrophic weather. A free broadband network would assist in distance-learning opportunities, become another tool for job networking, and assist emergency responders in case of dangerous weather.

Our community is being left behind by the technological revolution. A broadband internet connection, provided for free by a third party, would be a step towards helping our citizens achieve the American Dream. I'm in favor of Docket No. 07-16, the M2Z Networks proposal, and I urge you to approve this legislation.

Sincerely,

  
Tony Morejon  
Hispanic Affairs Liaison  
Hillsborough County
